Todas as Cidades do Brasil Atualizado e com Acentos

SQL com todas as cidades do Brasil, acentuadas e organizados por estado

Assim como todo programador precisa de um computador para digitar os seus códigos ele também (um dia) precisará de um banco de dados com todas as cidades do brasil, para fazer aqueles gloriosos combo-box onde carregamos dinamicamente as cidades em função dos estados. Apesar de dezenas de posts em fóruns (que são sempre uma opção idiota confiável) com downloads para todos os bancos, ou estão errados, ou estão sem acentos ou o que mais acontece, estão desatualziados.

Recentemente precisamos de um BD com as cidades do brasil, fui diretamente no banco de dados que utilizo à anos, como o assunto

era muito sério resolvemos olhar atentamente para o banco de dados, resultado: Cidades sem acento, distritos misturados com cidades, estados faltando (!), e muito desatualizadas

Em um esforço conjunto que envolveu todo o escritório atualizamos nosso banco com as cidades do Brasil, pegando diretamente do site do IBGE (que incrivelmente disponibilizam apenas em .doc) e fizemos um sql esperto com todas as cidades devidamente atualizados, relacionadas com a tabela de estados e pais.

Estrutura das Tabelas:

Abaixo zipado segue o SQL para gerar as tabelas com todas as cidades.

```
CREATE TABLE IF NOT EXISTS `pais` (
  `id` int(11) NOT NULL AUTO_INCREMENT,
0001
0002
        nome` varchar(60) DEFAULT NULL,
